### **DETAILED ACTION**

1. This action is in response to the remarks/amendment filed 2/10/2006.
2. Claim 1 is pending in the application.
3. Claim 1 is rejected.

### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. The terms "additional functions of SCCP SAPs not provided by either Transport Control Protocol or User Datagram Protocol" and "provide the user with the same quality of service as the user would expect if a full SS7 Stack were used" in claim 1 are relative terms which renders the claim indefinite. The term "additional functions" and "the same quality of service as the user would expect" are not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

### ***Response to Arguments***

6. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection.
